A FRESH LOOK FOR ALLEN POND

The City is about to embark on designing several significant improvements at Allen Pond Park. The first phase will include the addition of permanent restrooms, the replacement of the existing stage, an increase in paved parking spaces and the redesign of the amphitheater lawn area. If you have suggestions to share with the consulting team or have seen a similar Park used for concerts and special events in a location you have visited, please share the information with us. We want this Park to reflect your wishes and serve your needs.

If you would like to review the entire Masterplan for the Park, it is available on the City webpage at www.cityofbowie.org.

Comments and suggestions can be sent to Matt Reno, Project Manager at mreno@cityofbowie.org; 301-809-3076 or Bowie City Hall, 15901 Excalibur Road, Bowie, MD 20715. The deadline for receiving suggestions is November 15th.
